- **Three Previous Years Average of LA Qualified Research Expenses:** Enter the average of three previous years qualified research expenses claimed on the federal tax return. The calculation will vary if there was less than three years of qualified research expenses (See base calculation FAQ)
- **Total Employees (including affiliates):** Indicate the total amount of employees as of the last quarter of the year

SECTION TWO

(Application Page 4)

Research & Development Information
Activities and Expenditures

- **Total R&D Employees:** Indicate the total amount of employees who engaged in R&D
-

Research activity is considered “qualified research” if it meets all of the following four requirements of Internal Revenue Code (IRC) § 41(d) (1):

1. Qualify as a business deduction under IRC §174;
2. Be undertaken to discover information that is technological in nature.
3. Be undertaken to discover information intended to be useful to develop a new or improved business component of the taxpayer.
4. Substantially all activities involve a process of experimentation. “Substantially all” means 80% or more the research activities involve a process of experimentation.

A qualified research activity must meet all four tests to be considered for the Louisiana R&D Tax Credit. Apply tests separately to each business component of the taxpayer.

Please note that if your application is selected for a desk audit or detailed examination you will be asked to provide additional documentation. A detailed list of additional documentation that might be requested if your application is selected for a detailed examination can be found on page 6. Section Four, in the Checklist of Application Requirement by Application Type form.
