

# Louisiana Economic Vitals

Friday, March 27, 2026

# PREFACE

*Louisiana Economic Vitals* is a weekly report prepared by LED's State Economic Competitiveness (SEC) team. This report provides readers with data from federal and state governmental entities, as well as other credible third-party sources. All data has been independently analyzed and summarized to ensure clarity, brevity, and practical utilization.

# LED PROJECT PIPELINE

Since Governor Landry took office in January 2024, LED has announced 84 projects representing over \$92.7 billion USD in new investment and more than 12,800 direct new jobs across Louisiana.

As of March 26, 2026, LED is actively tracking and involved in 180 distinct projects with a combined value exceeding \$282.1 billion and the potential to create more than 41,445 direct new jobs.

# CERTIFIED SITE PROGRAM

Since the launch of its Certified Sites Program, LED has certified 165 industrial sites, with all or portions of 36 sites advancing into active commerce. At full build-out, these projects represent more than \$34.5 billion in capital investment, over 6,350 direct new jobs, and more than \$407 million in total annual wages statewide. Currently, there are 125 actively marketed certified sites across every region of Louisiana.

## Active Certified Sites by Region

|                     |    |
|---------------------|----|
| Acadiana . . . . .  | 23 |
| Bayou . . . . .     | 6  |
| Capital . . . . .   | 25 |
| Central . . . . .   | 9  |
| Northeast . . . . . | 13 |
| Northwest . . . . . | 17 |
| Southeast . . . . . | 18 |
| Southwest . . . . . | 14 |

TOTAL **125**

# 1. LABOR MARKET ACTIVITY

The following figures illustrate metro area employment by industry utilizing data from a payroll survey — specifically, it collects data from a sample of employers (businesses and government agencies) through a monthly survey of establishment payrolls. The CES program, run by the U.S. Bureau of Labor Statistics (BLS), surveys approximately 119,000 businesses and government agencies representing about 629,000 individual worksites. Employers report data on the number of employees on their payrolls, hours worked, and earnings. This is why CES data is often referred to as the “establishment survey” or “payroll survey”, as opposed to the Current Population Survey (CPS), which is the household-based survey that produces the unemployment rate. In the figures, employment is presented in thousands and December 2025 is preliminary.

### 3. LOUISIANA REAL ESTATE

Louisiana Realtors® produces monthly reports on local market updates for the state and its regions. The following tables illustrate regional housing market indicators, which can reflect local economic conditions, affordability, demand vs, supply, migration trends, and cost of living. A list of parishes served by each regional entity is provided.

# 4. PORTS

The following figures provide a over-the-year comparison of export and import activity across Louisiana's five deep-water ports, reflecting the region's current economic conditions, trade patterns, industrial strengths, and supply chain dynamics. Areas shaded in blue indicate daily activity for the current 7-day moving average is greater than the prior year 7-day moving average.
